EFS151

1500kg 3-Wheel Electric Counterbalance Forklift

LI-ION TECHNOLOGY

Let's grow together

- Super-Compact 3 wheels truck designed around 48V Li-Ion battery
- Perfect machine for light to medium duty applications in confined space
- Reduced overhead guard height (h6<2000mm) to work on low floors and pass trough doors
- Great ergonomic design with adjustable steering wheel and comfortable bucket seat
- Powerful AC traction motor
- 48V Li-Ion battery grant efficiency, good autonomy and occasional charge
- Single phase integrated charger with 16A plug

FEATURE

Ideal for space with low-ceilings

EFS151 demonstrates a compact design especially at the height (<2.0m) which makes it an ideal tool to perform the tasks in space with low ceilings such as malls, old factories, underground parking garage, cargo lifts and older warehouses -- even with a 3F4350 mast. This 3-wheel truck also features a small turning radius 1535mm and light weight 2200kg, offering great maneuverability in narrow aisles and mezzanines.

Lithium technology with integrated charger

EFS151 adopts a maintenance-free 48V/150Ah Li-ion battery and 48V/30A internal charger, which delivers more charging convenience and increased uptime due to opportunity charging, better fitting in 24/7 operations.
A 48V/180Ah AGM version with a 48V/30A external charger is also available.

Bluetooth preventive service app for maintenance efficiency

EFS151 guarantees a high level of maintenance efficiency with EP preventive service app that enables operators to connect the truck via bluetooth for parameter changes and monitoring as well as diagnostics trouble code reading without a handhold unit.

Market-proven components

EFS151 adopts market-proven reliable components that encourage its long service life.
