

V2208.01

Let's grow together

EPT20-30RT/EPT20-30RTS
EPT20-35RT/EPT20-35RTS
Electric Pallet Truck 3.0/3.5t

Pallet Truck with Higher Speed and Greater Capacity;
Provides an ideal choice for Super-tough Working Conditions;
Maximum Capacity Reaches 3.5T and Driving Speed up to 12KM/H;
Dual Pallet Forks Option Doubles Material Handling Efficiency.

EP EQUIPMENT CO.,LTD
www.ep-equipment.com

FEATURE

Performance

- The innovative AC system offers strong power, accurate control,excellent performance.
- High strength vertical gearbox, longer working life.
- Low-noise but durable hydraulic unit, good quality cylinder as well as hose ensure the high reliability of hydraulic system.
- AMP connector and durable electric wires greatly reduce malfunctions of components.
- Super high intensity frame design supports high speed, high capacity and long distance applications.
- Adjustable long push rod ensures the stability and lifespan of the truck.

Safety

- Moving parts are far from operator to avoid accidents.
- Operator can freely switch between high speed/low speed switch,by which safty and reliability are greatly enhanced.
- Dual protection arm can assure the operator to be protected in any standing position.
- Emergency reverse belly button protects operator from getting hurt.
- Emergency disconnector will cut off power source to avoid accident when truck goes out of control.
- Large pedal allows operator to stand fully inside and well-protected.
- Anti-rolling back brake keeps the truck from skidding down when truck is out of control or travelling on ramp.
- Dual-monitoring power steering, the top safety design(electric steering).

Operation

- With the new design of ergonomical tiller head, all buttons can be reached conveniently &comfortably.
- Thanks to the entry roller design, this truck enters and exits pallets easily.
- With the design of ergonomical tiller and buttons , the truck can be operated safely and comfortably under various applications with excellent working view.
- High speed wheel are choosen as standard configuration.
- Can be functional as low level order picker with coast control option.
- Side&top open battery compartment allows various battery option, convenient for replacement and maintenance.
- Electric power steering, smooth & comfortable (EPS).

Maintenance

- AC traction motor, maintenance free.
- Hour meter and battery indicator remind operator of battery charging.
- Easily remove the back cover by only loosing four bolts; Access to all key components for inspection, maintenance and replacement.
- Vertical motor makes the inspection & service much more convenient.
- Control system allows easy trouble-shooting.
- Low voltage lift cut off design protects the battery.
