F2 - A smart and sleek truck for retail usage

Sleek truck frame and lithium technology

F2 is born from the market-proven model EPT12-EZ and carries its strengths on both appearance and lithium power supply. Its sleek truck frame is perfect for handling usage in supermarkets and malls. And the smart Li-ion battery makes F2 always available for retail usage due to opportunity charging and maintenance free.

Upgraded load capacity offering greater productivity

F2 comes with 120kg self weight but higher load capacity 1.5 ton than EPT12-EZ, offering greater productivity boost.

New tiller head for ergonomics

F2 adopts a new tiller head for an user to operate the truck more easily using the palm of his hand, instead of controlling the knob with thumbs.The pinch force exerted on a control knob during operations can be minimized so that excessive physical stress and strain on the hands are reduced.

Why F Series ?

Platform-based design to maximize competitive advantage in the market

F series features the platform F, which simplifies the configuration of the truck and allows buyers to choose from 4 different chassis by application. The product design provides value and creates a flexible product strategy by introducing new equipment that meets various market requirements.

Cost-saving operations throughout the distribution cycle

4 units per box as standard wholesale supply reduces overall spending through the entire distribution process. F2 accommodates **176** units in a 40'shipping container compared to 108 units of EPT12-EZ, that can reach as high as **30-40%** of ocean freight charges reduction.
