TDL161/201

1600/2000kg 3-Wheel Dual-drive Counterbalance Forklift

LI-ION TECHNOLOGY

Let's grow together

- Premium 3 wheels truck designed around 48V Li-Ion battery
- Powerful dual drive AC traction motors
- Innovative design for higher operator comfort
- Great ergonomic design with adjustable steering wheel and comfortable bucket seat
- High-resolution LCD display installed at the upper right corner of the cabin
- Single phase integrated charger with 16A plug

FEATURE

Hydraulic steering system with better human-vehicle interaction

The TDL series adopts the hydraulic steering system and this achieves more precise and responsive operation, which demonstrates better human-vehicle interaction. Plus, the hydraulic steering system comes with a simple and reliable structure with lower maintenance costs.

Electromagnetic joystick available for premium needs

For premium material handling, the electromagnetic joystick is available as an option which puts operation experience and productivity at the forefront. The joystick houses all controls of the truck and the operator are allowed to perform all functions in a palm-sized place with utmost precision.

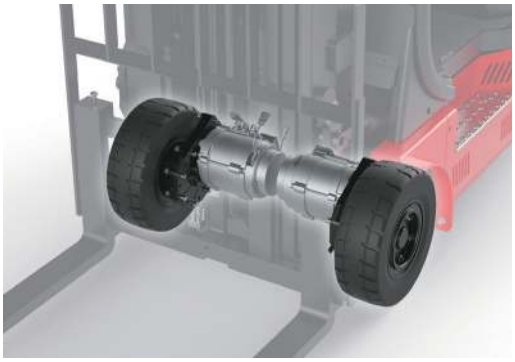

Larger legroom to amplify driving comfort

The integrated design of the operator compartment is intended to create a larger operational space to improve ergonomics to reduce operator work-related health issues, as well as to improve operational efficiency.

Powerful and constant working performance

The lithium battery with opportunity charging and 5.4kW*2 dual drive motors guarantee the TDL series operate at full power at all times with a permanently high performance. It comes with a 48V/50A integrated charger as standard for charging convenience and 48V/150A and 48V/200A external chargers available as options to better fit in your needs.

Optimized truck frame for cabin installation and detachment

The TDL series features the streamlined design as the L2 series and an optimized one-piece truck frame, which is easy for cabin installation as well as detachment.

New informative LCD display

The TDL series provides the high-resolution LCD display which is installed at the upper right corner of the cabin. Via a glance, the operator is able to find speed, working hours, battery status ,miles driven and parking status. This informative and intuitive display ensures relaxed and safe working.
